

Fitted Renovations Pty Ltd

Fitted Renovations Pty Ltd is a boutique joinery company with a locally based workshop in Bathurst.

Sladjan Vujatovic, our director, served his apprenticeship with one of Sydney's top retail fit-out companies - Transform Retail Projects. Throughout his early career Sladjan was fortunate enough to have been trained by and work alongside some of the finest, highly qualified tradesman and people in the industry. This exposure allowed Sladjan to accumulate extensive knowledge, experience, and technical expertise.

Our team comprises of honest, qualified, and dependable tradesmen. Together we have the skills and knowledge to accommodate your requirements for your joinery project in a new build home or renovation. Sladjan will personally oversee every aspect of the project. With a perfectionist eye for detail and a true craftsman's desire for quality, you can rest assured that we will strive to provide the highest level of service and quality of products in the most efficient and cost-effective manner.

We provide quality custom cabinet manufacturing & installation service throughout the Central West and beyond. We strive to manufacture and install high quality, purpose-built joinery that makes optimal use of space and is exactly suited to your style, requirements, and design trends.

Currently the services we offer include:

- Custom cabinet manufacture and installation
- Built-in wardrobes for Home Builders, Homeowners and DIY
- Kitchen bathroom and laundry renovations
- Kitchen, bathroom, and laundry maintenance

Services to become available soon include:

- Shower screen supply and installation.
- Vanity Mirror supply and installation

FRAMELES SLIDING DOOR RANGE

(Custom - Made to Measure Doors)

This option allows for an unlimited choice of colours. You can choose from any of the major Australian brands such as Dulux, Taubman's etc to perfectly match your interiors. Simply visit your local paint or hardware store and advised us of the brand and colour code.

You can also choose the finish of your doors from satin, matt, or gloss. Satin is currently the most popular option. It is quite easy to clean and does not show finger marks as much as gloss does. Note if you choose dark colours or a glossy finish, any minor imperfections in the surface will be highlighted. Fitted Renovations does not consider this a fault.

Polyurethane finish is the most popular and hard-wearing paint finish for wardrobe doors. It is durable and easy to care for, needing just a wipe over with a soft damp cloth or soapy water. Never use a scouring or abrasive compounds or materials.

Please note: Fitted Renovations does not stock this range. Special purchase order required for Custom - Made to Measure Doors

Please allow 15 - 21 days turnaround for this selection.

SPECIFICATIONS:

The system includes a 16mm support batten for the bottom track. Batten is included in the overall opening height unless specified otherwise.

Aluminium frames and tracks are available in Chrome, Matt silver, White and Black.

The tracks are 85mm wide. The bottom track has a double V-Groove system. For a three-channel track system (125mm wide) it is an extra \$150.

Doors run on quick glide metal case and nylon roller wheels. Silent smooth and long-lasting running system
